(**) If the building is pre-painted in the factory then the building kit cannot be reversed/mirrored at the point of installation. Some touching up of the paint may be necessary after installation.

(***) The protective paint kit is offered as a DIY solution to ensure the best protection for your new building. It contains enough for you to apply three coats of Jotun Demidekk to the exterior. If you wish to select an accent colour for the doors/windows then an additional charge will apply for additional materials. It does not include for any knotting solution, stain blocker or woodfiller that may be required.

(****) If you do not wish to apply the protective paint yourself then we can arrange for a decorator to attend your home (within 50 miles radius) and apply our paint kit for the cost indicated above.
